POULTRY PLAST

PIGEON RACE

The global reference position acquired by Giordano Poultry Plast in the poultry industry worldwide is the result, on the one hand, of the experience gained over time, well in excess of half a century, and on the other hand, of the ability not to neglect any of the species raised in the world.

The Company has accordingly deemed it appropriate to gather in a single brochure, for some species of particular economic and potential interest, all the equipment specially designed and produced for that species, thereby simplifying the research and having a dedicated selection available.

This publication deals with the Pigeon Race.

Widely spread throughout the planet, this activity keeps on growing in size and in the request for reliable and quality equipment.

Taking its cue from the above remark, this guide intends to offer a range capable of meeting in the best way such expectations, which had to quickly accommodate the transformation of the sector from a hobby to a profession, with the growing involvement of ever new enthusiasts, technologies and economic interests.

Operators vie with one another in absorbing championships and confront each other thanks also to multiple specialised websites.

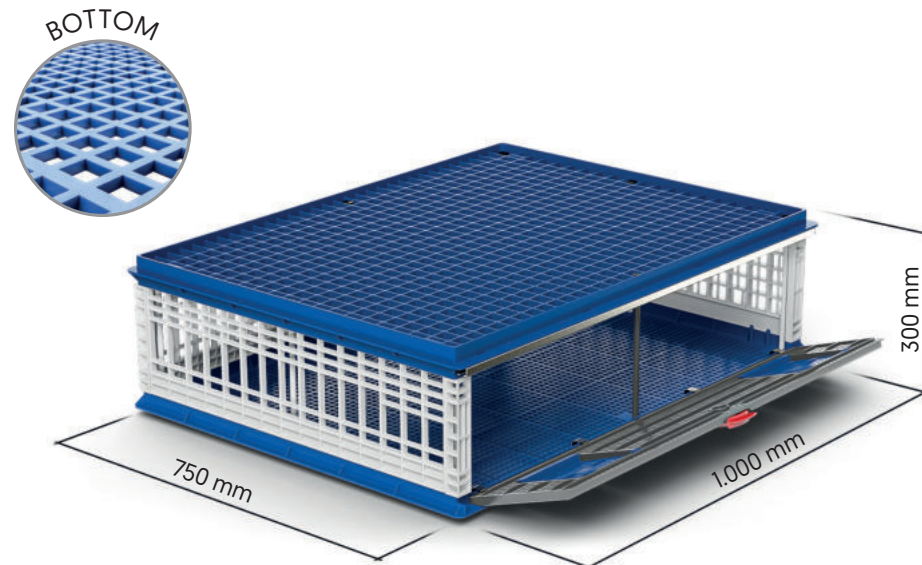

The products, described in detail, are divided between the different stages in the life of the animals, from breeding to transport. For their conception and design, such aspects as: animal welfare, duration, safe use and environmental impact, have been paid special regard to.

The Giordano range: always the best response to technical needs, with all-round attention to the dynamics of the global poultry market.

PIGEON COOP - TYPE A

Cod. 0111002.50

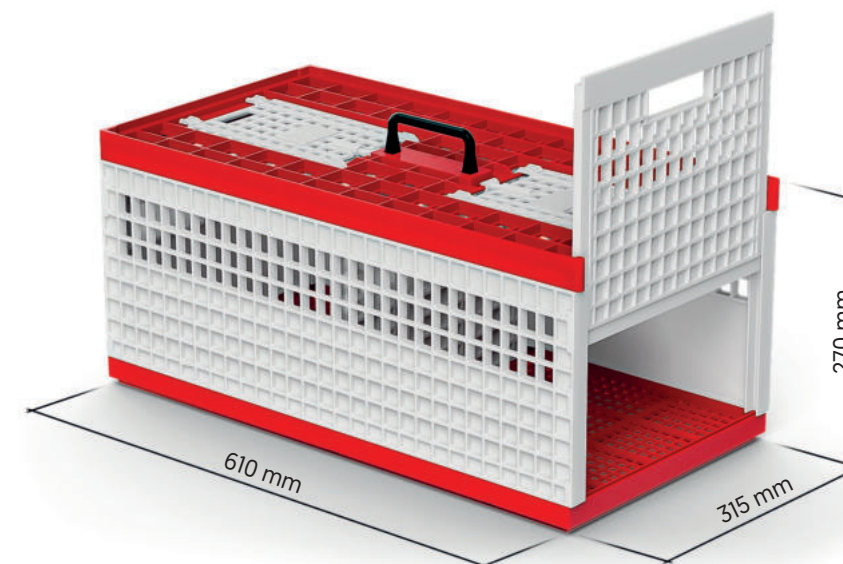

CHARACTERISTICS

Outside dimensions:
750x1.000x300 mm
Weight:
10,7105 kg
Swinging door size:
900x210 mm
Capacity:
20/22 pigeons
Shipping capacity:
250 pieces per 20' cnt
525 pieces per 40' cnt
588 pieces per 40' HC

PIGEON COOP - TYPE C

Cod. 0112001.50

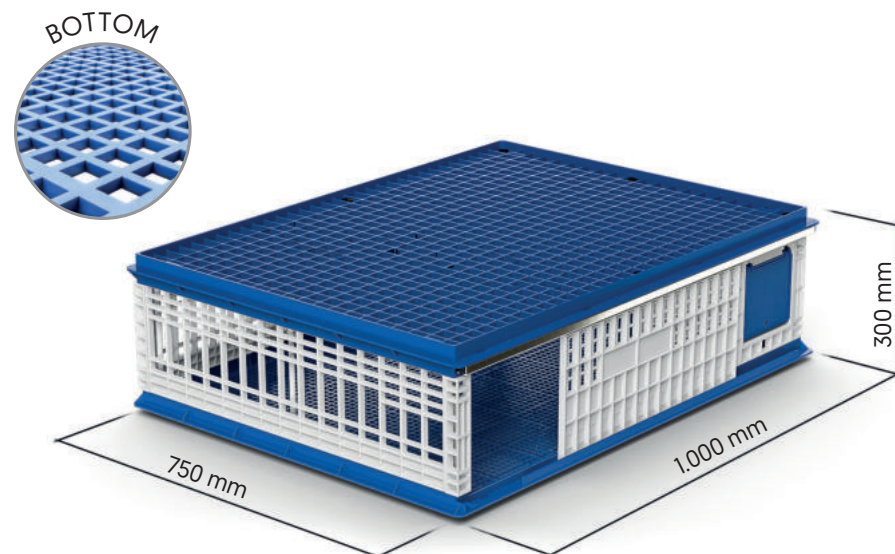

CHARACTERISTICS

Outside dimensions:
610x315x270 mm
Weight:
3,247 kg
Sliding door size:
270x210 mm
Capacity:
4/6 pigeons
Shipping capacity
(assembled cages):
530 pieces per 20' cnt

PIGEON COOP - TYPE B

Cod. 0111001.50

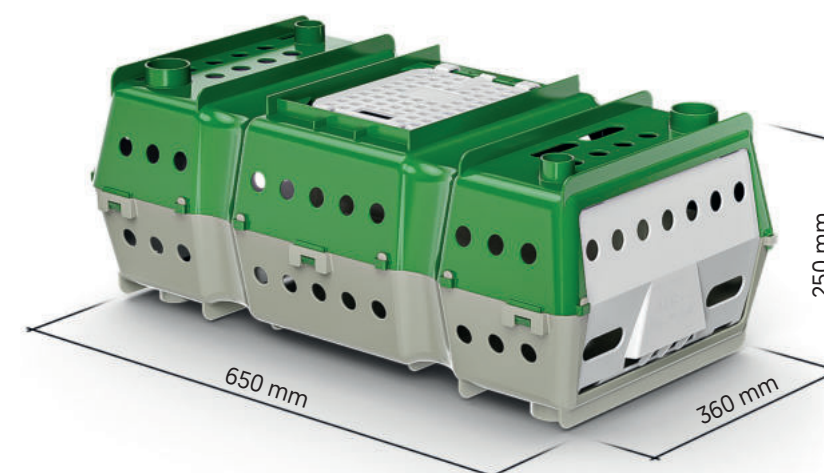

CHARACTERISTICS

Outside dimensions:
750x1.000x300 mm
Weight:
10,868 kg
Sliding door size:
440x210 mm
Capacity:
20/22 pigeons
Shipping capacity:
320 pieces per 20' cnt
640 pieces per 40' cnt
710 pieces per 40' HC

PHEASANT COOP

Cod. 0113004.50

CHARACTERISTICS

Outside dimensions:
650x360x250 mm
Weight:
2,454 kg
Shipping capacity:
1.780 pieces per 20' cnt

CARPET FOR PIGEON COOP

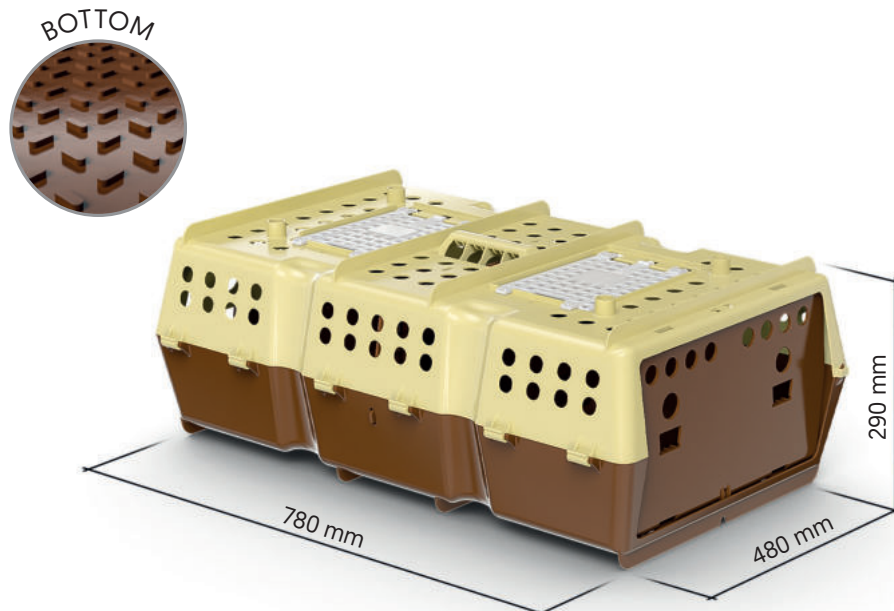

CHARACTERISTICS

Cod. 0111109.00
CARPET FOR PIGEON COOP TYPE A-B
Dimensions:
880x670 mm

Cod. 0112106.00
CARPET FOR PIGEON COOP TYPE C
Dimensions:
560x290 mm

PIGEON COOP

Cod. 0112020.50

CHARACTERISTICS

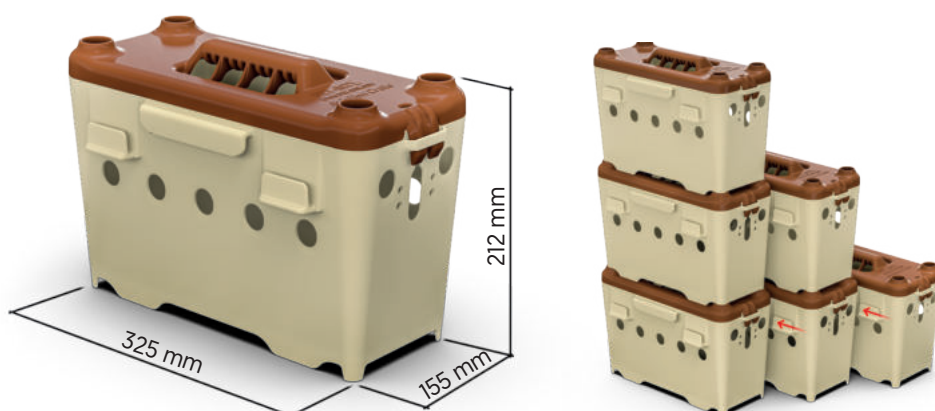

Outside dimensions:
780x480x290 mm

Weight:
3,535 kg

Shipping capacity:
1 pallet 120x80x170 cm = 66 cages

MULTIPLE PIDGEON BOX

Cod. 0112030.50

CHARACTERISTICS

Outside dimensions:
325x155x290 mm

Weight:
0,547 kg

Shipping capacity cage:
1 box 70x48x72 cm = 60 cages
1 pallet 120x100x210 cm = 420 cages
1 pallet 120x100x230 cm = 540 cages

Shipping capacity cover:
1 box 40x40x71 cm = 60 covers
1 pallet 120x80x225 cm = 1.800 covers

PIGEON NEST

Cod. 0112500.50

CHARACTERISTICS

Diameter:
260 mm

Height:
650 mm

Weight:
0,310 kg

Shipping capacity:
100 units per carton
